"TWENTY YEARS AGO"

I've wandered by the village, Tom,
I've sat beneath the tree,
Upon the school-house play-ground
That sheltered you and me;
But none are left to greet me, Tom,
And few are left to know,
That played with me upon the green
Just Twenty Years Ago!

The grass is just as green, dear Tom,
Bare-footed boys at play
Are sporting just as we were then,
With spirits light as gay;
But the master sleeps upon the hill,
All covered deep with snow,
Where once we used to slide, dear Tom,
Just Twenty Years Ago!

My lids have long been dry, dear Tom,
But tears come in my eyes;
I thought of her I loved so well—
Those early brok n ties;
I went again to that old church-yard
And took some flowers to strew
Upon the grave of those we loved,
Just Twenty Years Ago!

And some are in the church yard laid,
Some sleep beneath the sea,
And few there are of all our class
Excepting you and me;
And when our time shall come, dear Tom,
And we are called to go,
I hope they'll lay us where we played
Just Twenty Years Ago!

LEACHED AND UNLEACHED ASHES.

On this subject, J. A. Whitney writes: The economy to the farmer of using leached ashes is evident, even were it not probable that the leached are really the best.—The unleached ashes contain a large quantity of solu ble matter. Spread on your land, this matter is washed out by the first rain, perhaps acts immediately and rapidly, or it washes off, or soaks deep into the soil. Then, too, he loses for home uses his potash, and has to buy soap or lye to make it. The unleached ashes, if allowed to stand exposed to air and light under cover for six months or longer, absorb large quantities of nitrogen and oxygen from the atmosphere, converting the silicate and sulphate of potassa into nitrate, thus greatly increasing its value as a fertilizer. Occasional sprinkling with water, and turning over, so as to expose every particle to the air assist the change. In leaching ashes the addition of a peck or two of un-lacked lime to every two or three bushels of leached residuum quickens the nitrogenizing process, and converts the lye into a caustic hydrate, hence saving time and trouble in the future soap making.—Years ago Long Island farmers obtained large supplies of leached ashes from the soap makers of New York and Brooklyn, but the introduction of soda and cheap potash from Canada has caused the soap makers to cease the use of ashes.

As nitrogen rates highest in the valuation of manures, its substitution for the other combinations of the insoluble potassa plainly increases the value of the leached ashes as a fertilizer. There is another point in this use of leached ashes, when in combination with unleached lime. If the soil has any abominable matter in it, nitrogen is rapidly absorbed and ammonia formed by the action and reaction of the caustic lime, the potassa and the alum generated or formed from the aluminous earth.

WHAT SOILS TO USE ASHES ON.

It seems to be agreed by farmers who have investigated the matter that ashes do best on light soils, and some contend that they are actually injurious on moist and compact clays. The same authorities admit their value on the opposite character of soils. One farmer says:—"I sowed 100 bushels of ashes mixed, leached and unleached, on dry loam alluvion, and my hay crop was increased one half." Another states that he applied the leached, which he allowed to stand twelve months, to his corn crop on similar land, and found it greatly increased. One farmer of our acquaintance, clearing some new land, saved the ashes and applied them to his sweet potato crop, and raised over 1000 bushels to the acre. It is a safe rule for any farmer having land that he knows is deficient in potash, to apply wood ashes if he can get them, if not, the best fertilizer which contains potash. The valuable qualities of the Squankum and other green sands of New Jersey are due in a great measure to the quantity of th... alkali which they contain. The only question with him may be.

HOW TO APPLY THE ASHES.

On this point the experience of farmers differ greatly; some prefer broadcasting, others sowing in the hill. For wheat, of course broadcasting, and we think that this system is in all cases really the best as though perhaps not bringing such immediate results, it undoubtly benefits the whole mass of the soil and is more permanent. Many contend that the ashes should be composted. A compost we have seen and which we can recomend is: Ashes, 25 bushels; plaster 10 bushels; lime 10 bushels; animal manure, 40 to 50 bushels. Another is 1 bushel of plaster and 5 of ashes mixed, leached and unleached. We are of the opinion that whenever applied, unleached ashes should be mixed with ground plaster. This has a tendency to correct the great solubility of the potash, and acting on each other produce new, slower acting, and more valuable materials. Wood ashes composed with swamp muck correct its acidity and is itself benefited: hence, on loose, boggy soils we suppose its action beneficial, yet as such soils seldom need fertilizing but merely warming, the cheaper lime will answer for them. A compost made of wood ashes and cottonseed cake would be a valuable manure, and a mixture of fifteen bushels of ashes and fifteen of ground bone would be an excellent union. An English writer recommends ashes moistened with train oil, but cottonseed cake or fish cake would be as cheap and better.—*Working Farmer.*

MARRYING TOO YOUNG.—Mrs. Elizabeth Cady Stanton says: Girls do not reach their maturity until twenty five, yet at sixteen they are wives and mothers all over the land, robbed of all the rights and freedom of childhood in marriage, crippled in growth and development; the vital forces needed to build up a vigorous and healthy womanhood are sapped and perverted from their legitimate channels in the premature office of reproduction. When the body is overtaxed the mind loses its tone and and settles down in a gloomy discontent that enfeebles the whole moral being. The feeble mother brings forth feeble sons, the sad mother those with morbid appetites. The constant demand for stimulants among men is the result of the morbid condition of these mothers. Healthy, happy, vigorous womanhood would do more for the cause of temperance than any prohibitory or license laws possibly can. When woman, by the observance of the laws of life and health, is restored to her normal condition, maternity will not be a period of weakness, but of added power. With that high preparation of body and soul to which I have referred, men and women of sound mind and body, drawn together by true sentiments of affection, might calculate with certainty on a happy home, with happy children gathering around their firesides.

A widow, who had followed successively three husbands to the grave, entered a well known jewelry establishment in this city last Saturday, and, producing the three silver plates which had first adorned the coffins of the dear departed, desired the astonished proprietor to have these "made over into a butter knife."

NOTICE TO CAPITALISTS.
I SHALL Proceed to sell to the highest bidder for cash, at the Court House door in the town of Louisburg, on the 1st Monday in November next, it being the 7th day of the month, some Twenty or Twenty-five Thousand Acres of valuable Land, among which is the well known Portis Gold Mine, lying in Franklin county on the waters of Fishing and Shocco Creeks, containing nine hundred thirty-three and one-third (933⅓) acres together with all the Machinery and appurtenances.
Also all the chattle property. This property is so well known that any particular description is deemed unnecessary. The entire tract is rich in Gold, and all the difficulty is a fail supply of water. We are informed that an Independent Water Company is now surveying a ditch from Sandy Creek, to supply this and other Minerals in the neighborhood with water. When this is done and it will be accomplished in a few weeks, this property will be immensely valuable. The property will be sold for cash and unless parties from a distance come in competition, it must be greatly sacrificed.

THE CASWELL PRISONERS.

We mentioned last week the rumor that the Solicitor, J. R. Bulla, declined to draw a bill against F. A. Wiley, J. T. Mitchell and Felix Roan, at the present term of Caswell Superior Court, because he did not consider the evidence would warrant the Grand Jury in finding a true bill against them. This rumor has been confirmed by a letter received from a friend at Yanceyville yesterday morning. The letter says:

"The Superior Court for Caswell county has been in session this week; on Thursday of the term the counsel for F. A. Wiley, Jas. T. Mitchell and Felix Roan, moved for their discharge in the case in which they were bound over by Justices Pearson, Settle and Dick; when Mr. Solicitor J. R. Bulla, stated that he had examined the testimony taken by the Justices and was well satisfied no Grand Jury would or could find a true bill upon such testimony; in fact he would not ask a Jury for the finding of a bill upon such evidence, and consequently had no bill and did not intend to do so; and further, that the Grand Jury, of their own accord, had made every effort to find witnesses in regard to the perpetrators of the murder, with no success. Whereupon the Judge ordered the prisoners to be discharged."

And thus ends the mighty farce of the Caswell County Ku Klux cases in which Holden, Pearson and Kirk were such prominent actors. Let it be remembered—for it is an important feature of the matter,—that it was not a *Ku Klux Grand Jury* that refused to find a bill against these men, but a Radical Solicitor, with all the evidence before him, and all the witnesses at his command, who declares that the Grand Jury *could* not and would not find a true bill on such testimony as that on which Pearson, Dick and Settle bound the accused over to answer a charge of murder; and that it was a Radical Judge, and a very deeply died partisan one at that, with all the facts before him, and, no doubt, with a strong disposition to sustain Holden and justify that lying, garbled *Tribune* letter, who ordered that the prisoners be discharged.

Yes, the farce is ended, but what a light does the denouement place Holden, Pearson, Dick and Settle in! Language is impotent to characterize them and their action in this matter, faithfully and justly.—Their names will go down on the pages of history, not as good men and patriots would wish their names and actions to be handed down, but as partisan Judges, disturbers of the peace, revolutionists, traitors to the constitution, and oppressors of the people; corrupt officials, who plotted against the liberty of the people and the freedom of the ballot box, in order to perpetuate ill gotten and ill used power, and hide the venality and dishonesty of their partisan associates.

By the order of Gov. Holden *and approval of Justice Pearson, Dick and Settle*, (for Holden and Pearson were in "accord," and Pearson's decisions were, he said, sanctioned by the other two Justices,) a large number of the freemen of Caswell county were arrested and deprived of their liberty, not only without law, but against law and the Constitution, by the instrumentality of hired mercenaries, mostly from another State; held for weeks without being informed as to the charges against them or allowed a speedy trial and the opportunity of facing their accusers; subjected to the insults of their jailors, put to heavy pecuniary expenses besides the loss of their time from their legitimate business; dragged to Raleigh and there, after a farcial examination, required to give heavy bonds to appear at Court and answer,—nothing; for Bulla and Tourgee say there is nothing against.

Shall the men—the *officials*—who perpetrated these outrages go unwhipped of justice? Shall they not as officers, be impeached and deposed from their positions, and as men, be made to suffer the punishment of their crimes? We have no doubt that all these things will come upon them, and that an indignant and outraged people will see that the conspirators against their rights shall reap to the full the reward of their doings.

ANOTHER ONE OF 'EM.—Anderson Graves, one of the witnesses against the Caswell prisoners, who swore heavily against Felix Roan, was tried at the present term of the Superior Court of Yanceyville, was convicted on a charge of stealing money, and sentenced by Judge Tourgee to one year in the penitentiary.

Peter Joe Womack, another of the witnesses in the above cases, who saw Wiley, (as he said,) coming out of the room in which Stephens' body was found, went off with Kirk's "lambs," and when last heard from, had arrived safely in Tennessee and was still *progressing*.

We learn, that one Grant, who was a sort of author to Kirk's army in the late Caswell campaign, arrived at Yanceyville last week, on matrimonial purposes bent, but finding the Court in session and fearing that the officers might be making troublesome inquiries concerning him, he only "tarried for a night," and left early next morning or before morning, taking with him Miss Lolitia Stephens—sister of John W., to console him in his future wanderings. They came not married before leaving, but if it is to be *hoped* they have been by this time.

A sale of $12,000 of the new city bonds of Wilmington, has been negotiated in New York at 72,50.

MASS MEETING IN BERTIE.

We were present at Windsor, in Bertie county, on Tuesday last, at one of the grandest meetings of the season. We have seldom witnessed such an outpouring of the people.

The booming of cannon and the martial notes of the Brass Band, was the signal for the assemblage of the people in the Court House square, where a large stage had been erected for the speakers, in front of the Court House. At 10 o'clock the meeting was organized by electing Joseph R. Cherry, Esq., President, and Messrs. J. W. Sessoms, Thos. W. Thompson, John Wilson, Augustus Holly, James W. Mitchell, Lewis Cotton, Moses Gilliam and R. W. Askew, Vice Presidents.

Mr. Cherry upon taking the Chair made a handsome speech, acknowledging the honor done him in being called to preside over such an assembly of emancipated freemen. The President then introduced the speakers.

We were the first to speak. Our theme was Holden and his administration, upon which we discoursed for two hours, without wearying the audience. The President next introduced Hon. W. N. H. Smith, now of Norfolk. No one would acknowledge Mr. Smith as from Norfolk; his face and voice were too familiar to every person in attendance, and they regarded him as of yore, in no other light than as their old representative and friend from Hertford county. Mr. Smith made one of his best speeches, and never had a speaker a more attentive or a more delighted audience.—Dinner was then announced, and all repaired to the table, where was to be found everything to tempt the appetite and satisfy the inner man. We adjourned from the dinner table to meet again at night in the Court House.

The Speakers at night were P. H. Winston, Esq., of Bertie, Col. Clark, of Halifax, Mr. Peebles, of Northampton, Col. Spruill, D. C. Winston and Mr. Mitchell, of Bertie. These gentlemen made capital speeches, sufficiently stirring to entertain an audience until midnight, some of whom had fifteen miles to ride after the speaking.

The two last named gentlemen are young members of the Bar in Bertie, who canvassed the county as candidates for the Legislature. Senator Pool having met them in debate can tell who they are.

We had a most pleasant visit, meeting many old and making many new friends.—It was the week of Bertie Court, Judge Pool presiding. In attendance on the Bar was P. H. Winston, Esq., Maj. Henry A. Gilliam, Col. Moore, of Martin, Col. Walter Clark, Col. Spruill, Hon. W. N. H. Smith, Joseph B. Cherry, D. C. Winston, J. L. Mitchell, H. P. Harrold, Col. Wm. Moore, of Edenton, Major John W. Moore, of Hertford, and George H. Gregory, Esq., of Martin.

Among the skillful cultivators of the soil in attendance were Mr. James Bond, Dr. Thomas P. Smallwood, Thos. R. Askew, Augustus Holly, David Gaskins, Joseph H. Etheridge, Thos. W. Thompson, James W. Mitchell and Joseph H. Hardy.

THE UNIVERSITY.

The real friends of this institution are no little concerned about its present condition and certain death, if Radical plans and counsels are to control its destiny. It is not surprising that they should thus feel. But under Radical misrule the institution is so environed by constitutional and legal difficulties, as to cut off the hope of re-organizing it on a proper basis, and restore it to its former *status* and efficiency, until those barriers are removed.

Is it not premature to agitate the question of re-organization and to propose plans for its successful operation, before we have placed ourselves in a condition to effect securely any change which would meet the demands of our people? The present Constitution fixed its death and destiny, when it declared that the system of University education in this State should be a part and parcel of our Public School system. If this idea is carried out, which we presume no Conservative favors in our present condition, the present University can be nothing else but a grand charity school, which would necessitate the admission of whites and blacks both into the institution, or the building of another University for the colored students. In the present financial condition of the State and of our people, the latter project cannot be entered upon, if it were right and desirable.

We have no idea that the people of North Carolina can entertain for a moment, in their present condition, the Radical idea of providing for the education of every child in the State, between the ages of 6 and 21, Black and white, male and female, as a *public charity* at the public expense. It would involve an expenditure, which will not be within the ability of the people of the State, for the next fifty years.

We have not the law before us, relating to the University, based upon the Constitutional provision in regard to it, and we do not recollect its provisions sufficiently well, to give them. It provides for the selection of a Board of Trustees, composed of one member from every county in the State, if we are not mistaken, and empowers the Legislature to elect only one third or one fourth of the Board once in two years.—If this be so, or if there is a provision resembling it, the next General Assembly cannot hope to inaugurate such plans as are desirable for its re-organization, short of two years more, unless the present Board should resign, which we need not expect, or unless we can get a Convention to alter the Constitution in a shorter time.

If we are correct in this construction of the Constitution and the law, it strikes us, that developements in advance as to its re-organization, are premature.

The New York *Herald* says the monthly calendar of fires throughout the country in the month of September, exhibits an alarming increase over the previous month, and much greater than the corresponding month in any previous year.

VIRGINIA.

The success of the Conservatives in the last election in Virginia, was effected by the combination of all the elements of opposition to the straight-out Radical ticket, embracing old Democrats and old Whigs, who claimed to be Conservatives, and many of the moderate Republicans. The approaching canvass for members of Congress will be strongly contested by the Radicals, and we regret to see, a disposition to divide the Conservatives, on the part of some, who factiously contend for the inauguration of a straight-out Democratic party, at the hazard of dividing the Conservative elements. Most of the Democratic-Conservative presses and people are opposed to the movement, insisting that it can only tend to divide and distract the Conservative forces, and jeopard the success of the opponents of Radicalism.

We cannot see how a different result can be expected, if division and discord should be allowed to enter the counsels of the Conservatives. They need in the South the entire force of all the Conservative voters to destroy the power and influence of the Radicals. With the mass of the negro vote, and the combined aid of the State and National governments, it is no small task to break down and uproot the power of Radicalism in the South. Any policy, therefore, which in any degree tends to drive off or render indifferent any portion of the Conservative voters, whether old Democrats or old Whigs, is suicidal and criminal.

ANOTHER LEASE.

We understand that a proposition has been made by the Richmond and Danville Rail Road to lease that portion of the North Carolina Rail Road, lying between Greensboro and Charlotte. The Directors propose to consider and discuss the matter on the 8th of November, when such of the Stockholders as feel an interest in the matter, will be invited to be present and participate in the discussion. How the Directors could have gone so far as to give the proposition a serious thought, we are unable to see. We presume then it will be admitted that North Carolina is competent to manage her own affairs without the assistance of Virginia. If Virginia can run our roads and make money out of them, we assume then, with proper management, North Carolina can do the same. But a point that strikes us as superlatively ridiculous, is that the Danville Rail Road, having an income of only two hundred and ninety thousand dollars, should propose seriously to lease a Road that pays a dividend of six per cent and whose income is seven hundred thousand dollars, and has reached a million.

Of this seven hundred thousand dollars, we presume that more than one half is derived from that portion of the Road proposed to be leased. And it will be plain to see, that with a broad gauge between Greensboro and Charlotte the balance of the road between Greensboro and Goldsboro would be an expense to the Company. We cant think the Directors seriously contemplate calling together the Stockholders to consider any such proposition, for aside from the inconvenience we think it an insult to their understanding.

THE LATE HON. J. R. McLEAN.

The proceedings of the bar held in Greensboro' on the 16th ult., in respect to the memory of our late fellow-citizen, Jno. R. McLean, of Greensboro', not having been sent us, were, by some means, overlooked, until we noticed them a day or two ago, in the Winston *Sentinel*. We regret the oversight and hasten to comply with the request to publish the resolutions:

On motion of the Hon. John Kerr, Hon. W. A. Graham, was appointed Chairman, who upon taking the chair explained the object of the meeting in a short and pertinent address.

On motion, J. M. McCorkle and Ralph Gorrell, Esq's., were appointed Secretaries of the meeting.

On motion of Hon. J. M. Leach, the Chairman was requested to appoint a committee of five members of the bar to prepare resolutions for the action of the meeting, suitable for the occasion.

The Chairman appointed the following named gentlemen, a committee for the purpose above named, viz:

Hon John Kerr, Gen. J. M. Leach, John H. Dillard, J. I. Scales and Ralph Gorrell, who after having retired to a separate apartment for deliberation, returned into the meeting, and reported the following set of resolutions by the Chairman, Hon. John Kerr, for the action of the meeting, viz:

The Bar of Guilford Superior Court have met to render a tribute of respect to the memory of James R. McLean, late one of their fraternity, who has departed this life since the last term of the Court.

He was endowed with talents and genius, both in a surprising degree, and for twenty years pursued his calling with eminent success. A frail physical constitution painfully impeded his energies, but was not sufficient to defeat his rapid rise to eminence, as a lawyer and successful advocate, and accordingly he for many years commanded a full and leading practice in all the Courts he attended. By his diligence he had accumulated an ample fortune, of which however he was almost entirely deprived by the adverse fortunes of his country, a calamity he experienced in common with very many others of our best and most prudent people. He died in the prime of his manhood, leaving to the recollection of his friends, many displays of singular ability in his profession, and many corruscations of wit and genial flow of spirit in the social circle to touch their hearts as often as his memory recurs to them. In further token of respect to his memory.

Resolved, 1st. That we will wear the usual mourning badge for thirty days.

2d. That the proceedings of this meeting be presented to his Honor, the presiding Judge, with a request that they may be entered on the minutes of the Court.

3rd. That a copy of them be transmitted by the chairman of this meeting to the widow of our deceased brother, accompanied by the assurance of our condolence in her great bereavement.

4th. That a copy be also furnished the editors of the Greensboro' *Patriot* and the *Republican* with a request that they be published by the Raleigh SENTINEL and other papers.

After reading the resolutions, most appropriate and feeling remarks were made by Judge Kerr, R. Gorrell, Esq., Gen. Leach D. F. Caldwell, Esq., and J. H. Dillard, Esq., after which, the resolutions were adopted. The next day in a very appropriate speech from J. L. Scales, Esq., the resolutions were presented to the Court to be entered upon record, which Judge Tourgee ordered to be done, expressing his appreciation of the character of the deceased. In the speech of Mr. Gorrell, he gave a concise biography of Mr. McLean.

TROY, N. Y., Aug. 30, 1870.
MR. CHAS. PRATT,
Sir:—The 100 cases of Astral Oil purchased from you a few days since were in our warehouse when the fire occurred, and strange to say although the house was burned to the ground—came out of the fire almost unharmed, the wood cases were of course burned off and several of the top cans unsoldered on top. But there was no explosion and the Oil in the open cans did not burn.
This morning before anything was disturbed we had a Photograph taken of the ruins showing the Oil as it remained after the fire was put out.
Respectfully,
STODDARD & RUBTON.
☞ The Photograph above mentioned may be seen at my Store.

RELIGIOUS NOTICE.—Rev. Mr. Vass of Newbern will preach in the Presbyterian Church of this city, this (Tuesday) evening at 7½ o'clock.

Opening day at MRS. GETTINGER'S, to day (Tuesday October 11th.) Her friends and customers are respectfully invited.

COUNTY CONVENTION.

The people in the several townships in the county of Wake will bear in mind that their township meetings which have not been held should be held at an early day this week, in order that the delegates may be at the County Convention in this city on Saturday next. Let us have a full meeting, and let the Convention be harmious in the selection of its candidate.

It will be seen that St. Mary's township fires the first gun and holds the first meeting. Let others follow.

MAYOR'S COURT.—*Monday, Oct.* 10.—Yesterday morning His Honor disposed of the following cases:

Henry Layton, lying drunk on the street; fined $2.

Geo. S. Titus, for making an assault on his wife; sent to jail.

Chas. James, for stealing a watch, the property of William Green; sent to jail.

Henderson Tyler, drunk and disorderly on the streets; fined $2.

Betsy Ann Bryan, charged with making an assault on Monroe Cobb and his wife. Owing to the absence of some witnesses this case was continued.

PRESBYTERIAN SYNOD.—This body closed its business on Saturday last, and several of its members in order to meet previous engagements, left on Saturday evening. The pulpits of the Presbyterian, Baptist and Methodist Churches of the city, were supplied by ministers of the Synod on Sabbath, much to the edification of the hearers. The proceedings of the body were interesting and profitable, and the intercourse of its members with our people was every way pleasant and agreeable. The people of Raleigh will be glad when the period of its return to this city arrives again.

HENDERSON FAIR.—Persons leaving Raleigh for the Henderson Fair, can go on the local freight train at 4½ o'clock, A. M, and arrive at Henderson at 49 minutes past 8 o'clock, A. M, or can leave Raleigh on the mail train at 8½ o'clock, A. M, and arrive at Henderson 9 minutes past 11 o'clock, A. M.

Returning can leave Henderson 48 minutes after 1 o'clock P. M. and arrive at Raleigh, at ½ past 4 o'clock, P. M., or leave on the local freight at ½ past 4 o'clock, P. M. and arrive in Raleigh, at 9, P. M.

MORE NEW BUILDINGS.—We notice that Mr. W. D. Upchurch is having a new brick building, designed for a store, erected on the East side of Wilmington street, on the site of the old livery stables. It has already reached the bottom of the second story and the masons are going ahead on it briskly.

We also notice a large pile of brick lying on Wilmington street, further north, nearly in rear of Tucker Hall, intended for a large building, but for what use we did not learn, which will be erected by and for Mr. J. P. Pedrick.

The new brick stores—one for Messrs. Moore and Fowle, the other for Judge Bunting—have had the brick work completed, and the carpenters are busy putting in the wood work. This block on the old Planters' Hotel site will, when finished, comprise one of the most showy and commodious series of stores in the city.

HOOK AND LADDER CO.—We are requested to state that there will be a meeting of the above named Company, to-night, at Fireman's Hall, at 7½ o'clock. All members are requested to attend.

THE FAIR.—Next Tuesday our State Fair opens. Every preparation practicable, has been made to insure its success in every respect. The premium list is liberal besides the large number of special premiums announced by individuals. Sufficient accommodation will be found by all who may attend, and our merchants have laid in an ample stock of goods for all who may wish to make purchases during the Fair week. We hope to see a large crowd in attendance.

ELECTIONS.—To day, important elections, for Congress, &c., will be held in the States of Pennsylvania, Ohio, Indiana, Iowa and Nebraska.

"SPALDING'S GLUE," will just suit you.

GLITTERING TEETH.—Not only does SOZODONT impart the *whiteness* of the purest porcelain to the teeth, but its *polish*, too. They glisten after being brushed with it, like the inner surface of an ocean shell, and the effect of this peerless dentrifice is to render the enamel as hard, and indestructible as adamant.

WHO ARE THEY, WHAT ARE THEY!

Marshal Carrow informed us, that there was no difficulty in Kirk's giving bail. "There was," he said, "a half dozen of the most respectable gentlemen of the State ready to stand for him." Why are they not forthcoming? Why is their friend Kirk delayed here and not allowed to go home with his comrades in arms? If the half dozen do not come forth as Kirk's bail before Christmas, we shall begin to doubt what the Marshal said. Come forward gentlemen and relieve your friend.

HENDERSON FAIR—NEW ATTRACTION.—The managers of the Central Agricultural Fair, to commence at Henderson to-day, ever mindful of their guests, have, as we are creditably informed, determined to add an entirely new and very attractive feature to their usual pleasant and instructive programme. Recognizing the recently awakened love of scientific vocalism among our people, they will gratify their visitors with a vocal concert of a highly entertaining and unique character on Wednesday. For this purpose they have most fortunately secured the invaluable services of Prof. James Hunt, one of the most scientific musicians and successful teachers of vocalism in the South; who will be assisted by Mr. Gilbreth, of widely known artistic fame.

Dr. W. W. Young, one of the most energetic and prominent officers of the Society, and a well known musical amateur, will give his special attention to this part of the exercises which, by common consent, has been placed under his special supervision.

AN ENTERPRISING ROGUE.—We learn that at one of our city Churches, on Sunday, while the minister was holding forth to the congregation on the great moral precepts of the Bible, some enterprising rogue slipped into the vestry and stole his Sunday hat. Who will say that this is not a progressive age and that we have *some* persons, at present among us imbued with great moral ideas.

The gas will be on again to-night; parties using it will do well to leave their burners open awhile about the time it is turned on, so that it may expel the atmospheric air from the pipes.

John C. Williams, a respectable young man, formerly from Sampson county, but recently a resident of Fayetteville, was drowned on Saturday, October 1st, in Lock's Creek, near Fayetteville.

Last week, the store of Maj. B. C. Gorham, near Cedar Creek, in Cumberland county, was entered, robbed of goods and money and set on fire. The building and entire stock of goods were consumed.

On Saturday night, October the 1st, the dwelling house of S. R. Tolar, Esq., near Rockfish Church, in Cumberland county, was robbed of everything that could be carried, while the family were at Church.—Some $15 in greenbacks and nearly as much more in specie, was taken with the clothing, bedding, &c.

The proclamation for the gradual abolition of slavery has been published in Cuba.

The rumor of the death of Von Moltke, the General in-Chief of the Prussian army, is unfounded.

Crops in the section of Cumberland, Harnett, Moore, Chatham and Sampson counties are reported as excellent.

Greene County Superior Court commences at Snow Hill on the 17th inst.

Goldsboro is shortly to have a brass band.

W. J. Clarke, the newly appointed Judge, made his first appearance on the Bench at the Wayne County Superior Court last week.

Cotton comes into the Fayetteville market to the amount of about 100 bales per day. Prices range from 13½ to 13¾.

ST. MARY'S TOWNSHIP MEETING.

The Conservatives of St. Mary's Township, Wake County, met on Saturday the 8th inst.

On motion, B. F. Walton, Esq. was called to the Chair, and Y. L. Smith was appointed Secretary.

The Chairman explained the object of the meeting to be the appointment of delegates to the County Convention to meet in Raleigh on Saturday the 15th inst. to nominate a candidate for the House of Representatives, to fill the vacancy occasioned by the death of the late H. A. Hodge, Esq. The election will take place on the 10th of Nov. next.

On motion of Dr. L. C. Manly, it was resolved to appoint thirteen delegates to the County Convention. The Chairman appointed the following: Dr. L. C. Manly, Calvin Bangh, W. L. Fort, Dr. W. J. Busbee, Henry Utley, Henry Jordan, Holland Jewell, W. R. Pool, J. W. Crockett, James Dupree, W. L. Riley, Dr. W. A. Fort and C. B. Pool.

On motion, the Chairman and Secretary were added to the Committee.

Dr. Busbee being called on, entertained the meeting with a brief but pertinent speech.

The proceedings were ordered to be published in the SENTINEL.

On motion, the meeting adjourned.

Systems Run Down.

Persons often allow their systems to "run down," or rather run *them* down by over-work, accompanied by a neglect of the proper means of invigoration. The result is what is called "GENERAL DEBILITY;" in other words, a failure and partial collapse of the physical forces, accompanied, usually, by great depression of spirits.

The best remedy in such cases is Hostetter's Stomach Bitters. Whether the state of exhaustion has been brought on by excessive physical labor, dissipation, anxiety of mind, exposure, or any other cause, the remedial effect of this great stomachic will be found equally prompt and certain. As a restorative, after severe sickness has prostrated the bodily and mental energies, it is pronounced, by competent medical authority, "THE BEST TONIC IN USE." If men were not foolishly careless about their health, and over confident in themselves, they would always, when engaged in any work that required great exertion, use corresponding means of sustaining their strength. For this purpose Hostetter's Bitters are invaluable. All tourists should use them as an invigorant.

For those constantly employed in in-door occupations, especially in crowded workshops they may be reckoned as the very best safeguard of health. Where there is a predisposition to constipation, or a tendency to biliousness, they may be truly said to be a specific for which there is no substitute.

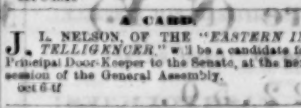
IMPORTANT TO ALL WHO VALUE THEIR SIGHT.



THE SIGHT OF THE AGED ASSISTED, THE WEAK STRENGTHENED AND THE PERFECT PRESERVED.

The Celebrated Concave Convex Crystal Spectacles, and Eye Glasses Manufactured by the

PHILADELPHIA OPTICAL INSTITUTE,

HAVE now been a long time before the public, and the rapid and increased demand for them, combined with the universal acknowledgment of their clearness and vision and ease to the eye, shows plainly that they are superior to any other glasses in the market.

The advantages claimed for the Concave Convex Crystal Glasses are the following:

The Lenses are ground of the best material pure and hard, and made only for optical purposes, they are therefore not liable to get scratched or dim.

They confer a brilliancy and distinctness of vision not found in any other glass.

They can be used equally well by day or candle light without tiring or fatiguing the eyes.

They are ground mathematically true in the concave convex mirror, according to the philosophy of nature, and shape of corner of the eye, therefore assisting nature only instead of hurting it.

That the lenses are centered correct into the frames.

They can be used longer than any other glasses without changing to a higher power.

The frames are made strong and durable by experienced workmen and warranted to give satisfaction.

With a view to meet the increased demand for our celebrated Spectacles, we have appointed an agent for this neighborhood, as stated below, who has received all needful instructions, and will in all difficult cases, have the assistance and consultation of a practical Optician from the Institute here

Gambetta's proclamation to the people says: "By order of the Republican government, I left Paris to transmit to you hopes of the Parisians and others seeking to deliver France. Paris presents a spectacle of two millions of men forgetting differences to withstand the invaders, who expected to dine. Four hundred thousand National Guards are now armed, and 100,000 Mobiles and 6 000 regulars are assembled. Foundries are casting cannon. Women make millions of cartridges daily. Each battalion of National has two mitrailleurs and field pieces, preparing for sorties. The forts are manned by marines, supplied with artillery of the greatest excellence and served by the finest gunners in the world. Hitherto their fire has kept the enemy from erecting the smallest works.

The entients on the 4th attempted 500 cannon, but now has 2,500, with 400 rounds for each gun. Every defence has its men at their posts. The Nationals drill constantly behind barricades, which are adapted to the genius of Parisians. The impregnability of Paris is no illusion. It cannot be captured or surprised, nor reduced by starvation. Arms are now coming from every quarter of the globe. Workmen and money are now forthcoming. The Provinces must resist torpor and panic. All partisans must aid the republic.

Soon winter will come, finding the Prussians far from home, decimated by French arts, hunger and nature. France shall never lose its place in the world through the invasion of half a million of men. Paris gives the watchword, "Vive Republique," "one and indivisible."

Gambetta says that provisions in Paris are good for many long months.

LONDON, Oct. 10.—A lack of good regimental officers delays the organization of the French armies. Bismarck recently informed the Mayor of Versailles, that he had no objection to elections. The German press ridicules the French levee en masse, as bombast.

ST PETERSBURG, Oct. 10.—The Russian movement toward the Turkish frontier is officially denied.

PAIN KILLER

PERRY DAVIS & SON PROVIDENCE R. I.

1840 1870

THE PAIN KILLER.

This celebrated medicine has won a deservedly high reputation as an alleviator of pain and a preserver of health. It has become a household remedy, from the fact that it gives immediate and permanent relief. It is a purely vegetable preparation, made from the best and purest materials, safe to keep and to use in every family. It is recommended by physicians and persons of all classes, and to-day, after a public trial of thirty years—the average life of man—it stands unrivalled and unexcelled, spreading its usefulness over the wide world. Its large and increasing sale affords positive evidence of its enduring fame. We do not deem it necessary to say much in its favor as one small bottle will do more to convince you of its efficacy than all the advertisements in the world. Give it one fair trial and you would not be without it for ten times its cost.

Directions accompany each bottle.

Sold by all Druggists.

Price 25 cts., 50 cts., and $1 per bottle.

NEW GOODS! NEW GOODS!!

AT

Creech's.

I MAKE MY BOW AGAIN TO MY NUMEROUS friends and patrons, with a house full of goods and still they come.

Why, just look, the streets filled with drays all loaded with new Good's

FOR CREECH'S.

Just received, 50 CASES OF DRY GOODS, containing a large and varied assortment; and when you talk about Dress Goods, and when you think of new styles and speak of Goods at the right prices, why, bear in mind that they are here and now opened at Creech's. COME AND LOOK AT THEM.

CALICOES, CALICOES.

I will sell you Calicoes at 8 cents per yard; want you look at them at 10 cents? and cant you afford to buy them at 12½c.

Goods for Men's and Boy's Wear.

Don't you know that I keep the best assortment in the City? You that do not know it, come and look at them and let me tell you that do know, come right along and buy what you want. I have got some for the boys, plenty for the youths. A fine supply for the young men and enough to keep the old gentlemen warm, so why not spend a few moments at Creech's and satisfy yourselves?

There the remote Bermudas ride
In the Ocean's bosom unespied;
From a small boat that rowed a-long
The listning winds received the song.
COME TO CREECH'S.

Cloaks and Shawls, Cloaks and Shawls.

Did I say Cloaks and Shawls? That is just what I mean. Why I will sell them to you for $2.00! do you want them cheaper? same quality. Cant find them! Do you want them finer? I am just the man that has them. 5, 7, 8, 10, 12, 15, 20, 25 and 30 dollars; do you want them finer still? Just say so, and I am the man to order them.

Boots and Shoes, Boots and Shoes.

Just received 100 Cases for Ladies, Misses, Boys and Children; so just put that naked foot into a boot or shoe, for it will soon be cold weather, and my friend, I see your boots are wearing out, and your shoes have a hole in them, so you had just as well come to Creech's and buy a new pair. They look better and fit better, any way; they keep your feet dry and preserve your health.

Hats, Hats, Hats.

All right; fit you right; styles right; and did you know that Creech's is the place to buy hats right? Come and look.

Ladies' and Misses' trimmed and untrimmed Bonnets; Would you not do well to spare a few minutes and come and look at them?

I beg leave to return my sincere thanks for the patronage I have received for the last 20 years at your hands and I hope, by strict attention to business representing goods as they are and in every instance giving you the worth of your money, to continue to share a liberal portion of your patronage.

THE MOST VIGOROUS AND PROGRESSIVE COMPANY IN THE WORLD.

The Equitable

LIFE ASSURANCE SOCIETY OF THE UNITED STATES

120 BROADWAY, NEW YORK.

BURROUGHS & SPRINGS,

GENERAL AGENTS,

CHARLOTTE, N. C.

TWENTY-ONE REASONS FOR PREFERRING THIS COMPANY TO ALL OTHERS.

1. Its cash assets are upwards of $13,000 000.00 and constantly increasing.
2. None of this is made up of promissory notes as in many Companies.
3. Its cash income per annum is over $6,500,000.00 and steadily growing larger.
4. None of this is composed of the notes-of-hand of policy-holders, as the case in many companies.
5. It has paid to widows and orphans, and other claimants under policies on deceased members, about $4 000 000.
6. Such payments are made in cash, and not partly in cancelled notes, as is the case in many companies.
7. No deductions are made from the face of a policy for premium notes when it becomes a claim, as is the case in all Note Companies.
8. The sum of $1 500,000, and upwards, in cash divided among policy-holders, (this included the dividend for the present year), as profits of the business.
9. All the profits of the business are annually divided among the assured. Equitably, instead of being wholly or partially distributed among the stockholders, as is the case in all "Mixed" and "Proprietary" Companies.
10. Dividends are invariably available as cash in payment of premiums.
11. The dividends are made from the start and not postponed until after the lapse of several years, as in many Companies.
12. The Society deals Equitably with its policy-holders.
13. The Equitable has made more progress since its organization than any other Life Company in the world.
14. Its risks have been so carefully selected and its dealing so equitable, that it has never been obliged to contest the payment of a claim at law.
15. Its modes of applying dividends are more numerous and more advantageous than those of any other company in the world.
16. It issues all the popular styles of policy, including "Ten Year Non-Forfeiting" and "Endowment policies."
17. The amount of new business during the year ending "December, 1, 1869, was $51,021,141.00.
18. Its policies average larger in amount than those of any other company, showing that capitalists select the Equitable for purposes of investment.
19. The profits of the business are apportioned to the assured on the "Contribution Plan," which is conceded to be the only equitable mode of division, and used by the few adopted by many companies, which is grossly unjust to a large proportion of the policy-holders.
20. It is as liberal in the conduct of its business as is consistent with safety to the assured, and does not sacrifice proper caution to an ambition to increase the nominal amount of its business as is the case with many new companies.
21. It is the favorite company in the United States, as is shown by its new business for last year, being nearly $15,000 000 greater than any other company.

EVERYBODY PREFERS IT AFTER GIVING IT A TRIAL!

It costs less! It lasts longer! Gives a more Brilliant Light! May be burned in hand lamps, without chimney.

Guaranteed to make a better and safer Light than Coal Oil and to be NON-EXPLOSIVE!!

No accidents have ever happened with it.

Protected by Copy right for 28 years from May 8th 1868.

The above Fluid has been in constant use for upwards of three years, and has sustained its unrivalled reputation, as a brilliant, non-explosive illuminating agent, though subjected to the severest tests. Being universally conceded to be superior to Kerosene or Coal Oil. It makes a better light and more of it, than any other illuminating compound. Soft, clear, steady and uninjurious to the eyes. All that is asked is, a fair and impartial trial.

Among the numerous testimonials received read the following:

PHILADELPHIA, March 15th, 1869.

The undersigned, having witnessed the experiments of Messrs. Hale & Co., with their Combination Burning Fluid, take pleasure in commending it to the public. The various tests to which the Fluid was subjected, was in the highest degree satisfactory. We have no hesitation in pronouncing it to be a *safe and brilliant* illuminating agent. Its cheapness added to its other good qualities, should insure its introduction into every family in the country, where Kerosene Oil is used.

The NATIONAL, under the management of his father, P. F. Pescud, Sr., secured very many warm friends who obtained policies for large amounts, and the fact that it has issued upwards of

10,000 POLICIES,

and nearly doubled its immense Capital of $1,000,000

in about two years, speaks more for its wonderful popularity than any language at my command. The rates being based on the Stock Plan, and when contrasted with Mutual Cash rates, are so much lower, that a certain and handsome dividend is secured from the date of the Policy.

I will be gratified to take applications from my friends and all wanting policies, and shall want many active and reliable Agents, in the fields assigned me.

FOR THE IMPROVED

"UTLEY COTTON PRESS."

THE "UTLEY PRESS" So well known, and which gave entire satisfaction last season, can be obtained of me at Raleigh, or my Agents, Messrs. Mitchell, Allen, & Co., Newbern, with its improvements.

Price $175.00.

This invention of power, whereby all friction is overcome, its simplicity economy and durability, astonishes all who see it; and the more so, that a power so simple should have remained so long unappropriated. The strain is wholly borne by the Bed Plate, Follower Blocks, and two 3½ inch square iron bars, which is capable of sustaining a strain of 190,000 lbs. Thus giving much more strength than is required. W. A THIS PRESS TWO MEN CAN PACK A BALE OF COTTON WITH EASE IN EIGHT MINUTES WEIGHING FROM 400 to 550 lbs.

One man can do the work, only requiring longer time.

It occupies a very small space, and can be so placed as to receive the lint direct from the Gin or Lint Room, as may be desired. Thus doing away with baskets, and frequent handling of the lint.

It is light in weight, can be taken down or put up in 30 minutes and transported on stwo Horse Wagon.

I believe it unequalled by any Press for power, convenience and durability.

Press complete—Depth Cotton Box 8 feet · Size Bale 44 feet x36x28inches; wt. Bale 400 to 550 lbs.

POLICIES VALUABLE IN LIFE, AS WELL AS AT DEATH!!

THE BROOKLYN LIFE, IS THE ONLY COMPANY IN AMERICA, WHICH GUARANTEES

DEFINITE CASH SURRENDER VALUES,

IN CASE A POLICY IS FORFEITED FOR NON-PAYMENT OF PREMIUM.

The BROOKLYN LIFE enjoys the highest reputation *for judgment of investment, economy of management, and skill and care in the selection of risks*, upon which elements of administration the security of a Life Insurance Corporation depends.

The laws of New York compel Companies in that State to calculate the Cash value of their Policies, each and every year, and a certain legal standard *of reserve and accumulation must be held by the Companies to meet all their liabilities.*

Insurers in looking around for Companies in which to insure, should carefully seek for this important safeguard. It will be found in the BROOKLYN LIFE.
